AllAmin24 TP+

Description

AllAmin24 is a premium foliar fertilizer developed for low water volumes and rapid absorption. It contains a complete blend of biostimulants, including TransPlus+, as well as advanced chelate technology that ensures efficient nutrient delivery even at very low doses.

The formula includes all 24 amino acids, which are essential for the formation of complete proteins.

Benefits

- Provides the plant with immediate energy
- Stronger plant development
- Supports better plant functions and reduces stress
- A robust immune system that helps the grass perform better under tough conditions

Application

Use spraying equipment that can produce a fine mist for a total spray volume (water + products) of between 300–350 liters/ha. Do NOT water in the application and preferably wait 3 hours before using the irrigation system, or apply at least 3 hours before rain.

Contents:

Total Nitrogen (N):	4.3%
(Organic Nitrogen):	3.9%
(Synthetic Nitrogen):	0.4%
Amino Acids:	30%

Dosage: 10 l/ha

Pack sizes:	100 L:	YY pcs/pallet
