HumikSea 2.0 TP+

Description

HumikSea 2.0 is a premium soil-applied product for spray application, based on a powerful blend of highly concentrated humic and fulvic acids, amino acids, seaweed extracts, and the biostimulant component TransPlus+.

The formulation supplies biologically active carbon (C), which strengthens soil health, stimulates microbial activity, and enhances the soil's natural resistance to diseases. By enriching the soil environment, HumikSea promotes a thriving microbial life and a more resilient, productive turf.

Benefits

- Strengthens soil health
- Stimulates microbial activity
- Improves the soil's natural resistance to diseases
- Promotes resilient and productive turf

Application

Apply using a larger nozzle and a spray volume of 500–600 L/ha. Water in a few minutes after application and irrigate again in the evening. Can also be applied during rain.

Contents:

Nitrogen (N) (Organic):	4%
Amino Acids:	24%
Humic/Fulvic Acids:	22.5%

Pack sizes:	100 L
-------------	-------

Dosage: 10–20 L/ha, every 4–6 weeks
